### If you want to add any banners to your website, you can find them linked under banners.

Find the banner you want to add to your site and click copy & paste HTML code. On your website, you should be able to add this as custom HTML code by customizing homepage widgets.

If you want to link to a specific page on the VACAYA website, scroll over to the button that states "create custom link" and then paste the link into the custom link generator.

With these links, you are armed with the tools you need to share VACAYA with your community and collect those affiliate commissions when they convert to sales!
